

OH&S Advisor

- 10 month contract with possible full time extension
- Must have civil construction and mining experience
- Your expertise required to enhance our safety team
- Drive in Drive out with 16/5 roster – east of Geraldton

Due to continued growth, DM Civil is seeking a suitably experienced OH&S Advisor to enhance our safety team. Working on the construction of an 135km pipeline for the Karara Iron Ore Project, you will ensure compliance with our safety, environmental and quality management systems in coordination with client requirements on site.

Your expertise and hands-on approach will ensure best practice in all matters of safety and environment including risk assessments, workforce learning, audits, reporting and compliance.

Your key competencies will be:

- A minimum Cert IV in OH&S
- 3+ years experience in civil construction and/or mining
- Proven ability to communicate with the client, management and all levels of staff
- Demonstrated success with implementing behavioural safety programs
- Demonstrated experience in monitoring, assessing and achieving safety and environmental compliance

An excellent salary package will be negotiated commensurate with your experience and expertise.
